Welcome Message

Dear Friends and Colleagues,

The Department of Surgery, Shri Balaji Action Medical Institute, New Delhi, is organizing SURGICON 2025 and extends a very warm welcome to all delegates & faculty to this Annual conference.

This year's theme, "Innovation in Surgical Practice: From Open to Robotic and AI," celebrates the remarkable evolution of surgery – from traditional techniques to the frontiers of robotics and artificial intelligence. It reflects our shared commitment to continuous learning, adaptation, and the pursuit of excellence in patient care.

The Department of Surgery at Shri Balaji Action Medical Institute has always strived to blend clinical expertise with innovation. Through SURGICON 2025, we aim to create a vibrant platform for surgeons across the country to exchange knowledge, experience, and ideas that shape the future of surgical practice.

The conference will feature didactic lectures, panel discussions, case-based deliberations, and live/video surgery sessions, showcasing the spectrum of modern surgical advancements. It promises to be an enriching experience for both young and seasoned surgeons to explore the latest trends and technologies that redefine the art and science of surgery.

We look forward to your enthusiastic participation, which will make this event a grand success and a defining milestone in our collective journey of surgical innovation.
